## BESTEK 8 US Standard AC Outlets USB Power Strip

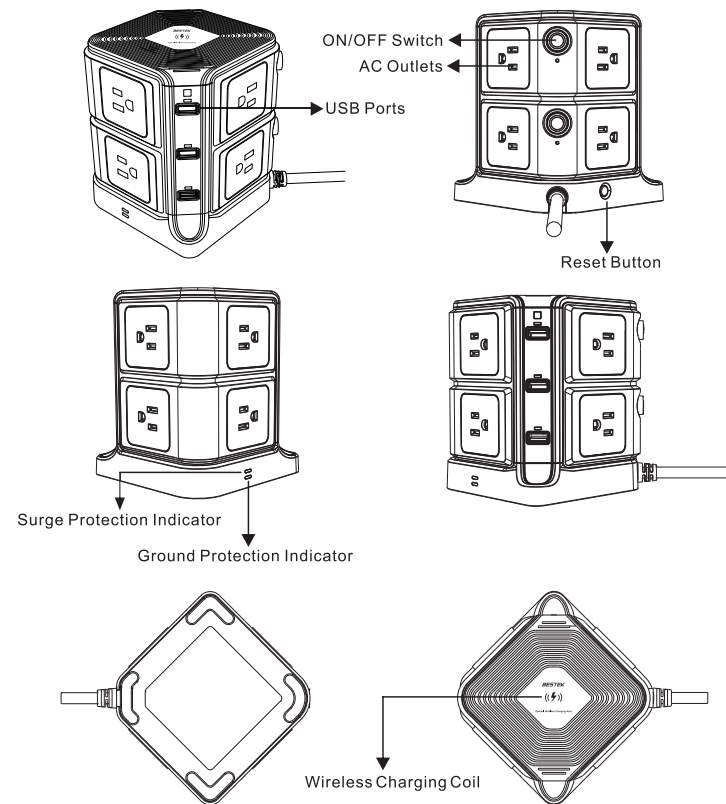

Model:MRJ8008-Plus

### Introduction:

Thank you for choosing the BESTEK 8-Outlet USB Power Strip for your power protection. This manual contains important information about the BESTEK 8-Outlet USB Power Strip, please read it carefully before usage and keep it for future use.

### Picture:

### Features:

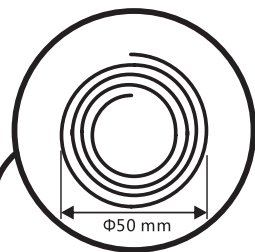

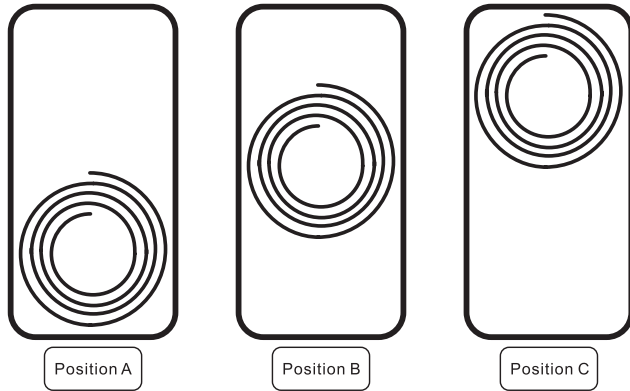

- ◆ 8 US standard AC outlets are divided into two levels, each level has a switch independently controls 4 AC outlets, energy saving and convenient for use.
- ◆ This product complies with the WPC wireless charging (Qi Inductive Charging Technology), it's compatible with all Qi-certified devices. You could simply place your device on the top center of the surge protector and enjoy convenient charging.
- ◆ 1500 Joules of SURGE PROTECTION, protect your computers, peripherals, household electronics and other valuable electronics against voltage fluctuations, surges and spikes.
- ◆ 6 USB ports with Intelligent LED indicator provide convenient charging for cellphones, tablets, computers, MP3, MP4, PSP, GPS and other digital electronic devices. (When normal charging, the indicator light is green; When the USB port is short circuit, overload, over current, the LED indicator flashes; After trouble shooting, the LED indicator will resume green.)
- ◆ USB LED indicator has Photosensitive Induction function, according to the intensity of light automatically adjusts the brightness of the LED lights, offers comfortable brightness (50% off) especially when charging at night.
- ◆ With automatic recognition function, USB can automatically identify the device type and model, compatible with almost all cellphones/tablets/PCs.
- ◆ Safety Door inside the AC outlets protect from unexpected electric shock.
- ◆ Safety Guarantee: fireproof V0-grade PC and ABS material, heavy-duty power cable, built-in surge protection, short circuit protection, overload protection, over temperature protection, over current protection.

### How to use:

- ◆ Plug the USB Power Strip into a properly grounded outlet.
- ◆ Plug the electric appliances into the USB Power Strip.
- ◆ Press the switches on to start charging.
- ◆ Plug your charging cable into the USB ports, then connect your USB rechargeable devices for charging, the LED light indicates the proper connection.
- ◆ Press the switches to cut off the power and remove devices from the Power Strip when charging is completed.

### Wireless charging instructions:

The internal wireless charging coil position of different mobile phones may be not the same, you can move your phone back and forth to get the ideal charging position.

Coil position of the wireless charging base

### Package Contents:

- ◆ 1 x BESTEK 8-Outlet USB Power Strip
- ◆ 1 x User Manual

### Specification:

Input	15A 100-125V~ 60Hz
AC Rated Power	1875W
Output Voltage	USB: 5V==2.4Ax6(Auto) Wireless Charging : 9V==1.1A
DC Rated Power	40W (Total)
Protection function	Surge protection, Short circuit protection, overload protection, over current protection
Insulation strength	Input To Output:1800Vac 1minute ≤10mA Input To FG:1500Vac 1minute ≤10mA
Charging Distance	Up to 5mm (from your device to the top center of the surge protector )
Temperature Protection Range	Output shut down: ≥ 70±5°C Output restart: ≤ 50±5°C
Conversion Efficiency	Max 85%
Working temperature	Operating: -5°C to +40°C. Store: -20°C to +80°C
Working Humidity	Operating: From 10%to90%RH relative humidity (non-condensing). Store: From 5% to 95%RH relative humidity (non-condensing).
Cord Length	6ft
Dimension	4.81×4.81×5.72 inches
Weight	34.64 ounces

### Warning:

- ◆ Indoor use only.
- ◆ Do not operate the power strip near the rain or wet areas.
- ◆ Do not operate the power strip if liquid of any kinds is spilled onto or inside the unit.
- ◆ Do not expose the power strip to direct sunlight or place it near wall heaters,space heaters, or enclosed space prone to temperature increase.
- ◆ Do not disassemble or repair(if not professional).
- ◆ Do not bend the pins of the plug.
- ◆ Please keep the power strip away of children.
- ◆ The BESTEK USB power strip requires a properly grounded outlet for safety and to protect the connected equipment. Please ensure your home's/office's electrical wiring has a proper grounding.

### Note :

- ◆ Please make sure the diagnostic lights are on,indicating that incoming AC wall power is safe(the "Protected" and "Grounded" indicators should be lit whenever the unit is on).
- ◆ Please press the "Reset Button" to restore electricity of the AC outlets in the event of overload or short circuit.
- ◆ Please use this power strip within specified voltage and current range.
- ◆ It's normal for the power strip to be a little warm when you use it to charge multiple devices.
- ◆ When your device's battery is fully drained, it may be charged a little slower at the beginning because of the battery protection from your device.
- ◆ Please check that your phone, tablet and other devices are used in accordance to your devices' user manual instruction.
- ◆ Due to the fact that charging distance is limited to 5mm and wireless charging uses magnetic induction, your phone case should NOT be too thick(less than 2mm) or have any metal or magnetic materials.
- ◆ Do not place metal objects on top of the product when power is applied.
- ◆ Please consult your mobile phone manufacturer before using an external wireless charging receiver.
- ◆ Unauthorized disassembly of any parts of this surge protector is forbidden and will void the warranty.

### Troubleshooting:

- ◆ When your phone can not be wirelessly charged, please remove your phone and re-position it.
- ◆ When the charging temperature is high, please remove the phone and re-position it.
- ◆ When your phone can not be wirelessly charged, please try disconnecting the power for 2 seconds and then re-power it.

### Warranty:

- ◆ All BESTEK products come with a 30 day money-back guarantee, an 18-month warranty, and a lifetime of friendly customer service!
